SLAUGHTER OF VALUES

Bad Half Day on New York Stock Exchange.

THE INDUSTRIALS SUFFER

Stocks Sold at Violent Declines Without Apparent Discrimination-Better Spirit After Noon Hour

and Closing Steady.

NEW YORK. Oct. 12.—The stock market spent a bad half day to-day up to noon, but during the latter part of the day a little better spirit showed itself, and there was some recovery. There was a veritable slaughter of values amongathe industrials during the morning and it was very evident that the disfavor caused by the developments last week in the United States Shipbuilding receivership case was still an active force in the market. Industrial stocks were sold at violent declines without apparent discrimination, just as they were bought during the period of prosperly in the stock promotion process. It is not to be supposed that all of the present scillers of these securities have received their first enlightenment from the shipbuilding muddle of the processes employed in the promotion, underwriting and floatation of industrial combinations for the past few years. Under-capitalization, or over-valuation of constituent companies and market manipulation by inside pools have been flagrantly in evidence and have persistently been pointed out from the outset of the piesent era of expansion. But it was evident that the specilality public was not being deterred from huying the stocks by these disclosures. Now, it is evident that the specilality public is paying exaggerated attention to even suggestion, and it seems evident that the public is paying exaggerated attention to even suggestion, and it seems evident that the preclaims on account of the acute stage reached in the dispute between Russia and Japan and the prevailing state of mind over the market has its greatest effect upon the United States Steel stocks and both of these touched new low records to-day, the common selling at 12 1-2 and the preferred at 57 1-2. The Londs were somewhat better supported. The list of losses in the industrial department running from 2 to 12 points is too long to recapitulate here. A number of rail-read stocks also suffered severely. The closing was about steady, slightly below the best.

on the last call.

Total sales of stocks were 789,200 shares.

(Special to The Times-Dispatch.)

NEW YORK, Oct. 12.—American stocks in the London market were irregular without any marked general tendency, and no obvious disposition to wait for the tendency and no brious disposition to wait for a tendency and constant of the control of th

THE CLOSE:

The market closed a good deal better than might have been expected. Very powerful support was given to Steel preferred, and the weakness of the market was rigorously confined the very limited group or railroad equipment stocks and the Steel issues. The good support in the railroad stocks caused some professional covering of shorts in the last half hour.

COTTON MARKETS.

COTTON MARKETS.

NEW YORK, Oct. 12.—The cotton market opened easy at unchanged prices to a decline of 6 points under liquidation, following rather disappointing cables and the absence of little from the first in the belt over Sunday, but report the day promised to run slightly under those of last year, and the weather on the whole was considered against the crop, it being too cold, while rains are reported from various sections, and shortly after the call covering brought about an advance to within a point or two of Saturday's finals. Unsettled conditions in Wall Street and threatening aspect of the Far Rastern situation were against purchasers, however, and the steadler tone was soon list, prices declining point by point under a moderate selling movement until they had reached a level net D@11 points lower. When towards the end of the session there was considerable covering, said to originate with heavy sellers, the market recovered all its loss's closing steady. 2 points lower to 2 points hisher. Sales, 200,000 bales.

A factor in the late advances was light recipts, estimated for to-morrow, and forecasts

INTERCOLLEGIATE DEBATE

Representatives of Richmond and Wake Forest Colleges Meet To-Night.

Representatives from Wake Forest College will meet a similar delegation from Richmond Collego to-night at Murphys Hotel to arrange for the intercollegiate debate, which comes off in Richmond Thanksgiving night.

debate, which comes off in Richmond Thanksgiving night.

The cup offered by the Raleigh Chamber of Commerce for the successful debater, was won last year by Richmond College representatives. The cup is now exhibited in the college library, and is especially prized by all of the students.

Wake Forest challenges Richmond College for the possession of the cup this year and are determined to bear back the trophy to the Old North State, while the proud possessors are equally determined to protect the laurels which they have won.

rery little fulnoing, considering facts.

The defense work of the college eleven was especially pleasing to Mr. Vail, for only once during the entire game did Fredericksburg succeed in gaining the required number of yards. In offense the college has always been strong, and she seems to be nothing lacking this year.

HAS A GELEBRATION

Anniversary of the Landing of Columbus Fittingly Observ-

The discovery of America by Christopher Columbus was fittingly celebrated last night by the Italian Country Club, at the club-house, on the Broad Street

Governor Montague, Mayor Taylor and Hon. C. M. Wallace were present, and made appropriate remarks on the life of Columbus, the discovery of America and the good the Italian people had done

and the good the Italian people had done for civilization.

The speeches were well-timed and in excellent taste, and were received with the greatest applause.

President Chasi Trafeiri and Chairman of the Committee of Arrangements Paul Valdrighi did themselves proud. A splendid feast was prepared and enjoyed by all, after which the national game of "Tombolos" was played. The winners of the prizes were Mesers. Orsi, P. Gonnelli, M. Casci and Sidney Cates

Then there was danching and general merry-making until a late hour.

Mr. Enea Colognori, a young Italian, made an address in the native language, which was well received.

HAD GOOD OPENING.

Not less than 5,000 people saw the open-ing of the Richmond Carnival last night. While a number of shows were not ready to begin performances when the hour of opening arrived, owing to the terrific storms and the consequent delay in transstorms and the consequent delay in transportation, it was easy to see that the Gaskill-Mundy-Levitt Carnival Company has an aggregation of shows the equal, if not the superior, of anything ever seen in this city. The sensational "loop-the-loop" is free after entering the grounds, and so are quite a number of other thrilling performances, including Holden's dive from the top of a ladder said to be nearly to feet their thrilling the state of the thrilling was the said of the said to be nearly Gaskill-Mundy-Levitt Carnival Company has an aggregation of shows the equal, if not the superior, of anything ever seen in this city. The shows are high-class and some are marvelous and instructive. Among the attractions which circumscribe the midway are the Stadium and Streets of India; the Trained Wild Animal Arena, where Hons, tigers, leopards, pumas, nauthers hears, and several schedule in both directions.

The shows are well worth seeing and Richmond people and many visitors who are in the city apparently are going to avail themselves of the opportunity, judging from the excellent and gratifying attendance last night.

Gaskwill-Mundy-Levitt Carnival Company is that they invariably return to a city after the first visit. The people like for them to come back. Upon leaving here they go to Raielsih, N.C., where they showed to greatly pleased audiences last year. The trained wild animal show is particularly thrilling. The animals are not a part of the Bostock collection, but are owned by the company. The performers in the arena are masters in their line, Before the great crowd came back to the city last night practically all the shows were running smoothly, and nothing but flatteringly appreciative expressions were heard. Afternoon and ovening performances will be given every day this week, and Mr James E. Hare, chief of promotion and publicity, stated last night that the Horse Show would in no way interfers with the attendance upon the carnival, but having brought a great number of visitors here, would tend to increase it.

THE DELINEATOR FOR NOVEM-EER.

A noteworthy feature in The Delineator for November is the second installment of The Evolution of a Club Woman, the plquant narrative, by Agnes Surbridge, which is causing no end of comment in feminine circles; it is based on fact and describes from the inside various incidents connected with the rise and progress of the president of one of Chicago's largest clubs. The same issue of the magazine has, in addition to its superb presentation of the knoming winter styles, some especially good features in J. C. Hemment's illustrated story of his personal adventures with the camera; short stories by William MacLeed Raine, Lillie Hamilton French, and Minna C. Smith; a delightful paper on chrysanthemums by N. Hudson Moore; a unique cookery paper, giving the recipes of appellzing dishes under the guise of fiction; and house plans and house-furnishing ideas by Alice M. Kellogg. There are also innumerable articles of culinary and economic interest to women, and for the children there are pleasant games and stories. A noteworthy feature in The Delineator
